Subject: Permit No. UGW230001; Grading and Contouring Proposal Approval

Dear Mr. Spor:

We are in receipt of your August 21, 1996 letter which modifies your original contouring and grading proposal of July 12, 1996. Based on the information contained within these two letters Contouring and Grading of the facility may proceed based on the following:

- 1) An As-Built report be submitted that demonstrates that the Contouring and Grading was conducted and completed as per the above correspondence.
- 2) Spent ore may not be pushed off the pad on to the surrounding ground.
- 3) The existing liner must not be damaged in any way. Any damage to the liner must be properly repaired.
- 4) Verbal and written notice should be provided when the actual field activities are initiated in order that an inspection can be scheduled.

You should also contact the Division of Oil Gas and Mining to determine if this proposal meets their criteria. Please contact Dennis Frederick to arrange for an inspection during construction activities. If you have any questions please contact Dennis at 801-538-6146.

Sincerely,

Fred C. Pehrson, P.E., Manager
